OUR PROPOSALS

We designed our interiors with an overall atmosphere and concept in mind. However, you have the choice to select the different options that have been provided per room or per category. Each room will be divided into three categories: built-in furniture, loose furniture, and decorative items.

The options by category are as follows:
- The "kitchen" includes furniture, appliances, and decorative items
- The "dressings" includes the wardrobe available in each room
- The "utensils and linen" option
- The "laundry and store" includes furniture and appliances.

At the end of this booklet, you will find a purchase order section from which you can select your preferred options.
