OUR PROPOSALS

We designed our interiors with an overall atmosphere and concept in mind. However, you have the choice to select the different options that have been provided per room or per category. Each room will be divided into three categories: built-in furniture, loose furniture, and decorative items.

The options by category are as follows:
- The “kitchen” includes furniture, appliances, and decorative items
- The “dressings” includes the wardrobe available in each room
- The “utensils and linen” option
- The “laundry and store” includes furniture and appliances.

At the end of this booklet, you will find a purchase order section from which you can select your preferred options.

Villas du Parc mood board

Exploring the powerful elegance of natural inspirations, we used different textures such as wood to create this atmosphere. **Contemporary details** were added to bring modernity to the decor. Our aim is to create **unique, elegant and functional villas**, where **each area is optimized** ”, explains Marine Juillan.*

This famous, red-roofed church offers a breathtaking view of the Coin de Mire, only a few kilometers north from Cap Marina, in front of a small sandy beach, where the fishermen pull in their boats.
